SSP INNOVATIONS

SSP Puts Ye On The Map!

1. SHIVER ME TIMBERS! YE HAVEN'T UPGRADED YET?!

Avast! Don't put this off! Two years ago, Jack Dangermond declared ArcGIS 10.2.1 the dedicated utility and telecom desktop release. Esri provides ye the best possible support, fixes and patches with 10.2.1 — with the least impact to yar business! Upgrade to 10.2.1 today for all yar utility and telco enhancements, including:

- Significant perfarmance and conflict-management improvements
- Key utility and telco updates and patches
- Full version supparrrt

Ask why 25+ utilities and telcos trusted SSP for 10.2.1 upgrades at 100% satisfaction.

2. SHARE INFARMATION MORE EASILY IN THE CLOUD ON ANY DEVICE, ANYWHERE, ANYTIME!

The core step in yar Esri platform is yar deployment on ArcGIS Online or Portal fer ArcGIS. Let SSP save ye work and booty by working with yar IT department, while using our proven deployment methods and arrrchitecture. We'll help ye decide on ArrrGIS Online or Portal, so ye can:

- Expose and collect GIS data in new, powerful ways
- Fully utilize Esri Named Users
- Bridge yar move to ArcGIS Pro and the Utility Network!

Ask about SSP's work with NiSource, Middle Tennessee, and boatloads more who used our ArcGIS Online Jumpstart!

3. EMBRACE THE NEW WORLD OF ARRGIS WITH PRO, INCLUDING THE UTILITY NETWORK!

SSP is the only Esri partner offering t'get yar feet wet with the Utility Network in just an hour! So ye can begin exploring:

- A truer representation of yar network and infrastructure
- Easier editing, infarmation sharing, modeling, and analysis

Adopting yar Utility Network is part of yar journey t'that thar ArrrGIS Pro, with better perfarmance and robust functionality.
